For details and news of special community meals visit our web site [www.wendyscountrymarket.com](http://www.wendyscountrymarket.com)

Our historic school house has been lovingly resurrected as an old-fashioned country market filled with food from a 100 mile radius. Open year-round, Wendy's Country Market is your hub for local food in the Kingston, Brockville, Gananoque, and Rideau Lakes area of Eastern Ontario.

Where are we? In the middle of nowhere and the centre of everything!

*Take home a taste of the country!*

# Wendy's Country Market

We are your hub for the best local food in the Kingston and Rideau Lakes area.

Open year-round, we offer organic and locally-grown, seasonal produce from over 70 local farmers and artisans: vegetables and fruit; meats, poultry, and fish; dairy, eggs and artisanal cheese; baked goods and prepared foods made with local ingredients; grocery items (including gluten-free); and lots of plants.

We also stock gluten-free products, craft items, and earth-friendly household cleaners.

Bring the kids for a day in the country and a visit with the farm animals.

# Wendy's Greenhouse

Whether you have a green thumb or are just starting to blossom as a gardener, we have everything you need. Specializing in heritage plants grown from seed, we carry a wide variety of herbs, vegetable, perennial and annual seedlings in a variety of pot sizes.

We also start a range of heirloom, beefsteak and cherry tomatoes. We plant early so your garden produces sooner, and can help fill in those mid-season gaps.

Custom-made planters upon request.

See full details of our plant selection at [www.wendyscountrymarket.com](http://www.wendyscountrymarket.com)

# Local Flavours Catering

Our Chefs are cooking up a storm using the best local ingredients. Pick up something fresh for tonight, frozen for the weekend, or take home a taste of summer preserved for the winter.

We'll also put together something tasty for your picnic or cater your event. Call us to discuss your menu.

Working with over 70 local producers from within our 100 mile area – and harvesting our own crops – allows us to bring you the best that local has to offer.

Catering is available year-round, with seasonal specialties.
